

■ symplicity

Judicial Affairs Management System (JAMS)

executive summary

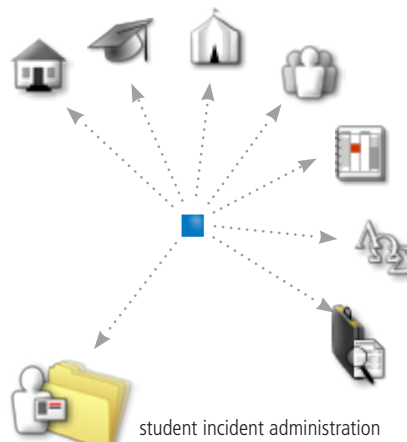

Symplicity's Judicial Affairs Management System (JAMS) is a comprehensive turn-key management solution for staff, students, and judicial affairs offices. JAMS provides fully customizable workflows that streamline coordination of multiple departments, offices, students, and RAs/RHCs to achieve efficient, accurate, and auditable results. Role-based authentication ensures privileged real-time access to incident information, processing, and reporting tools. JAMS integrates seamlessly with Symplicity's Student Affairs Management System (SAMS) and is the first product of its kind that interfaces with the university's registrar, authentication, and campus portal systems including SAP, PeopleSoft, Campus Pipeline, uPortal and SCT Banner.

JAMS employs the Symplicity e-Business Platform to provide universities with a comprehensive set of web-based tools to increase the level of coordination between their departments, groups and students to promote greater access to their student services and educational offerings.

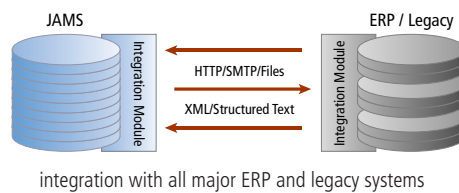

Symplicity's JAMS is the first product of its kind that addresses all Judicial Affairs needs in one integrated package.

JAMS is the perfect solution to help universities in their efforts to successfully reach out to all students and promises to increase coordination within the university while producing significant time and cost savings.

automation across all departments

student incident administration

integration with all major ERP and legacy systems

features include
